

Activity Cost Estimates.

Doc _____

Date _____

Project title :

WBS ID	Resource	Direct costs	Indirect costs	Reserve	Estimate	Method	Assumptions / Constraints	Basis of estimates	Range	Confidence level
Unique Identifier.	The resource (person , equipment, supplies) need for the WBS element.	The costs directly associated with the resource.	Any indirect costs, such as overhead.	Document contingency reserve amounts, if any.	The approximated total cost	The method used to estimate the cost, such as analogous , parametric, etc.	Document any assumptions used to estimate the cost, such as, the length of time the resource will be needed.		Provide a range of estimates, If applicable.	Document the degree of confidence in the estimate.
